Bug Report

Title: Can't Create Paid Video Lessons

Description: Incorrect datetime value message display 2023-06-31"
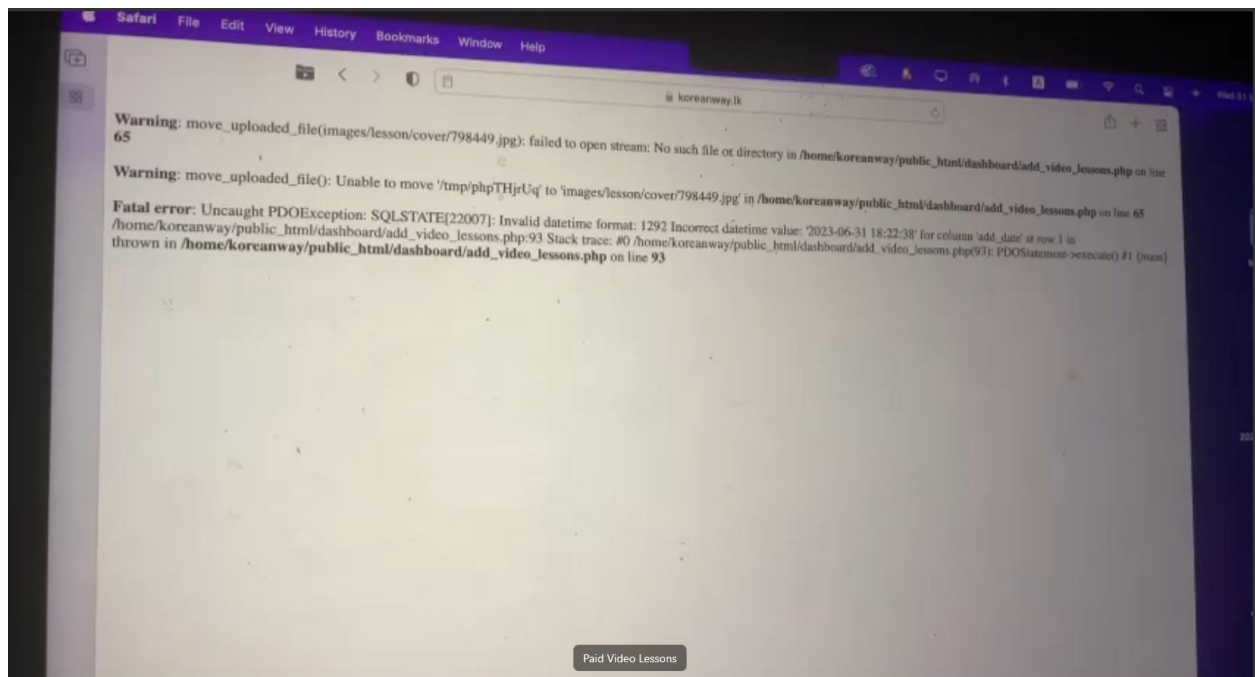

Steps to Reproduce:

1. Go to the Admin Area->Video Lesson .
2. Click on the "Add NewVideo" button.
3. Enter all the fields.
4. Click on the "save changes" button.

Expected Behavior: The video lesson should be created successfully.

Actual Behavior: The video lesson is not created and the error message is displayed.

Screenshots:

Additional Information:

I have tried clearing my browser's cache and cookies, but the issue persists.

Reproducibility: The issue can be reproduced consistently.

Impact: This issue prevents admin from creating new video lessons.

Urgency: This issue is urgent as it prevents admin from using the system.

Bug Identity:

$paymentMonth = mysqli_real_escape_string($conn, $_POST['payment_month']).date("-d H:i:s"));

It out put 2023-06-31 18:20:25 but June month end of 30 day

$_POST['payment_month'] = 2023-06

date("-d H:i:s") = 31 18:20:25

this function get in current month end of month date(May month end 31)

Resolution :

Update code segment like this

$getmonth = mysqli_real_escape_string($conn, $_POST['payment_month']);

$payment_month = date("Y-m-t", strtotime($getmonth)) . date(" H:i:s");

And update dashboard/add_video_lesson.php,add_class_schedule.php

add_video_lesson.php - 28,29 lines

Add_class_schedule - 37,38,100,101 lines
